EXPERIENCE

Python Programmer — Sep 2022 – Nov 2022
Corvit Systems, Faisalabad

- Worked with Python for automating cloud-based tasks.
- Managed AWS instances using Python scripts.
- Collaborated with team members to deliver cloud solutions.

MERN Intern — Feb 2023 – Aug 2023
Techloset Solutions, Faisalabad

- Developed responsive UI using React.js, HTML, CSS, and Tailwind CSS.
- Ensured cross-browser compatibility and optimized performance.
- Debugged and tested frontend code for production readiness.

MERN Stack Intern — Dec 2023 – Jan 2024
CodeClause (Remote)

- Developed multiple React-based applications by implementing reusable components, state management, and responsive UI using React.js and Tailwind CSS.

MERN Stack Intern — Dec 2023 – Jan 2024
SYNC (Remote)

- Built and delivered several web applications using the MERN stack, including UI development, REST APIs, database design, and application deployment.

MERN Stack Intern   Aug 2023 – Sep 2023
TopperWorld (Remote)

- Worked on different MERN stack projects, contributing to both frontend and backend development.

Front-end Developer Intern   Sep 2023 – Oct 2023
CodSoft (Remote)

- Worked with the MERN stack to develop multiple full-stack web applications, focusing on responsive UI, API development, and end-to-end functionality.

Full Stack Developer   Aug 2024 – Sep 2024
Zephrex (Remote)

- Contributed to the development of product features and internal tools.
- Worked on full-stack solutions to support business operations and improve workflows.

Freelancer   Sep 2024 – Present
Remote

- Working on multiple client projects to deliver software solutions and services.
- Developing web applications and custom features based on client requirements.

PROJECTS

- **Realtime Code Editor (React, Socket.io)** – Live collaborative coding environment.
- **Realtime Tic Tac Toe (React, Socket.io)** – Online multiplayer game with realtime updates.
- **Food Ordering App (Next.js, Auth0, MongoDB)** – Authentication, ordering system, and UI.
- **Image to Text / Audio / Video / PDF (MERN)** – Multi-format conversion tool.
- **Music App (React)** – Interactive music player with UI controls.
- **Deep Face Detection (Python, TensorFlow)** – Face detection using CNN models.
- **Spam Detection (TensorFlow)** – ML classifier for spam vs ham messages.
- **AI Todo List (AI + MERN)** – Smart todo list with AI-powered suggestions.

CERTIFICATIONS

- JavaScript (Coursera)
- CS50x Puzzle Solver (Harvard)
- Soft Skills Bootcamp
- WordPress Training
- Stanford Code in Place
- Computer Networking
- HCIA Security
- MERN Bootcamp (Techloset)
- Microsoft C .NET Training
- Selenium Testing
- Graphics Designing
- Cyber Security
- NSE-1 & NSE-2
- HCIA Cloud Computing
